For grown-ups

Read the story first, then pick one page a day. Each page takes 10 to 20 minutes. There are no wrong answers.

The big idea

If there's no room for you, you can make a place, and then make room for everyone, even those who left you out.

Say it together

Scoop, loop, snug!

Five words from the story

Word	What it means	Do it
snug	warm, cosy and comfortable	hug yourself and smile
shy	a bit scared to talk or join in	hide behind your hands
meadow	a big field of grass and flowers	sweep your hand flat and wide
vine	a long, bendy plant that climbs	wiggle your arm upward
welcome	happy to have someone come in	open your arms wide

A gentle note

The rabbits' sorry is a kind repair, not the reason they are let in. The door was already open to everyone.

Nobody is welcomed because they turn out to be useful. Quilla belongs because she is Quilla.

What you need

Crayons, a pencil, scissors, glue or tape, a few craft sticks or straws, and the book (or read it free on screen at doubleadventure.ca).

Make and do

Pick one to try today. Each one comes straight from the story.

Acorn lanterns

You need: Paper, crayons, string

Make a small paper lantern and write or draw one way you can make room for someone new. Hang them by the class door.

Build a snug

Make a cosy den with cushions and blankets. Who will you invite in?

Badger bedding

Badgers change their bedding often. Help a grown-up shake out a blanket and make a fresh bed.

Thump warning

Play rabbits: when the 'fox' comes, thump your foot and everyone freezes!

Draw what you made

The real animals

The animals in The Snug are based on real ones. Here is something true about each of them.

Quilla

Crested porcupine

Porcupines can't shoot or throw their quills. They only come loose when something touches them.

Bodie

European badger

In Italy, cameras have filmed badgers, porcupines and foxes using the very same burrows.

Hazel

Red squirrel

One red squirrel may eat the seeds from up to 20,000 pine cones in a year.

Thimble

Wood mouse

When something scares it, a wood mouse can leap high in the air.

Story or real?

Real crested porcupines live on the ground and don't climb trees like Quilla does. They are also much bigger than a badger! But badgers and porcupines in Italy really do share homes.

Where they really live

Bramble Hollow is made up, so we picked a real place where crested porcupines, badgers, red squirrels and moles all live: the Casentino Forests National Park in Italy. It's one of the few places in Europe where you can meet a porcupine!
