

Classroom SEL pack, a week on generosity, ages 3 to 7

The Spring That Wanted to Stay

A five-day plan with everything to print: word cards, a poster, a feelings chart, sequencing cards, activity cards, promise cards, an observation grid, exit tickets and family letters in five languages. The Home Activity Pack is included at the back.

Classroom licence: one teacher may print and copy this pack for their own class and students' families. Please don't share the file or post it online.

The week at a glance

About 20 to 30 minutes a day. Each day stands alone if you only have time for one.

Day	What you do	Print
Day 1 Read and learn the words	Read the story with the pause points. Teach the five words with gestures. Put up the poster and word cards.	Pages 3, 4, 5
Day 2 Feelings	Feelings check-in. Re-read the book and talk about how the characters felt, using the talk questions.	Pages 6, 9
Day 3 Retell	Mix up the sequencing cards and put the story back in order as a class. Retell with “First… Then… At the end…”.	Page 7
Day 4 The water cycle in a bag	Draw a sun, a cloud and a mountain on the bag. Pour in a little water, seal it and tape it to a sunny window. Over the next days, watch drops form at the top and ‘rain’ d…	Page 8
Day 5 Stuck pond, flowing stream	Stuck pond, flowing stream, then promise cards and exit tickets. Send the family letter home.	Pages 8, 10, 14 to 16

Ontario Kindergarten frames

Belonging and Contributing, Demonstrating Literacy and Mathematics Behaviours, Problem Solving and Innovating, Self-Regulation and Well-Being

Materials

The book (or the class screen), a clear jar of water, a tray, small stones, a watering can, a cup of ice

Also in this pack

All 12 pages of the Home Activity Pack (from page 17), which you may copy for your class. Book languages: English, French, Spanish, German, Italian.

Day 1: the read-aloud

Before (3 minutes)

Show the cover. Ask: Where does water come from? Where do you think it goes? Ask: Is it ever hard to share something you love? Why? Take a few answers kindly. Teach the sound: tap one finger on your palm, slowly. ‘Drip… drip… drip.’

During: stop, ask, listen (10 minutes)

Spread	What happens	Ask	Listen for
3	Nura and Willo look after each other.	What do Nura and Willo give each other?	water, shade, birdsong
4	Nura is afraid she will disappear.	Why is Nura scared to flow down to the valley?	she thinks she will spread out thin and vanish
5	The storm blocks her stream; ‘Now I can keep all of me.’	Why did Nura want to keep all her water?	she was scared, she wanted it all for herself
7	The pond grows still and murky; the frogs leave.	What is happening to Nura now?	she is still, heavy, murky, the frogs left
9	Willo droops; his birds fly away.	What happened to the valley and to Willo when Nura stopped flowing?	dry, brown, thirsty, the animals struggled
10	Full, but lonely.	Why do you think Nura felt empty even though she was so full?	she was alone, nobody was with her, she wasn’t helping
12	Whoosh! Nura spills over the wall.	How do you think Nura feels now?	free, happy, sparkly, alive
14	She becomes a river.	Did Nura get smaller when she shared?	no, she got bigger, she became a river

Spread numbers match the reader on the class screen. You don’t need every stop.

Handle with care: Wanting to keep things is normal. Never shame a child for it; Nura is scared, not bad. More notes on the “For every child” page.

Word wall cards

Cut out and add to your word wall. Teach each word with its gesture.

spring

a place where water bubbles up out of the ground

Do it: wiggle your fingers upward like bubbles

pond

a small pool of still water

Do it: make a round shape with your arms

flow

to move along like water in a stream

Do it: wave your hand forward

still

not moving at all

Do it: freeze like a statue

valley

low land between hills or mountains

Do it: make a V shape with your arms

Drip... drip... drip.

Say it together whenever it comes up in the story.

© A² Publishing, doubleadventure.ca

Water that is held grows still. Water that is shared stays alive.

Drip... drip... drip.

© A² Publishing, doubleadventure.ca

How do you feel today?

Post at circle time. Children clip a peg with their name on a face.
Characters' feelings change during a story, and ours can too.

happy

clip your name here

sad

something else

clip your name here

© A² Publishing, doubleadventure.ca

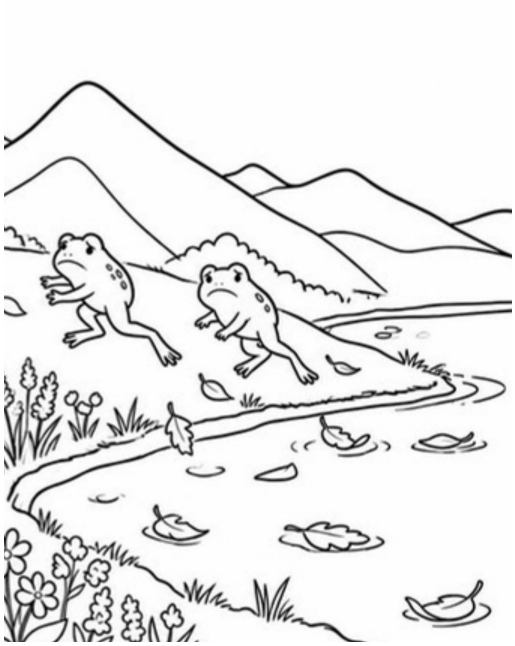

Sequencing cards

Cut apart for the pocket chart. The four scenes come from the start, two middles and the end of the book, mixed up. Put them in order and retell. Children can color them too.

Answer key, top left to bottom right: 3, 1, 4, 2.

© A² Publishing, doubleadventure.ca

Activity cards

Cut out and keep with the book. Use one on Day 4 and one on Day 5, or any time.

The water cycle in a bag

15 minutes, then watch over a few days, Whole class, Materials: A zip bag, a little water with blue food colour, tape, a sunny window

Draw a sun, a cloud and a mountain on the bag. Pour in a little water, seal it and tape it to a sunny window. Over the next days, watch drops form at the top and ‘rain’ down. Retell Nura’s journey with it.

Stuck pond, flowing stream

10 minutes, Small groups, Materials: A tray, stones, a watering can, leaves

Build a stream on a tilted tray and pour water. Then block it with stones and pour again. Add leaves to the still water. Talk about which water stays fresh.

Share and pass on

10 minutes, Whole class, Materials: A cup of water and small cups

Pour water from one cup into everyone’s cup, then pour it all into a plant pot. Ask: Where did the water go? Did it disappear, or did it help?

Science and nature corner

Snow on mountains melts and soaks into the ground, then bubbles up as springs and flows into streams. Streams join to make rivers that flow to the sea. The sun warms the water and lifts it into the air, where it forms clouds and falls again as rain or snow. This is the water cycle. Willows love water and grow along streams; their roots help hold riverbanks in place. Otters need clean rivers with plenty of fish.

© A² Publishing, doubleadventure.ca

Talk together

Use after reading, at circle time or with a small group. Accept every honest answer.

1. Why did Nura want to keep all her water?

Look for: She was afraid she would spread out and disappear.

2. What happened to the valley and to Willo when Nura stopped flowing?

Look for: The valley dried up, the animals struggled, and Willo drooped.

3. Why do you think Nura felt empty even though she was so full?

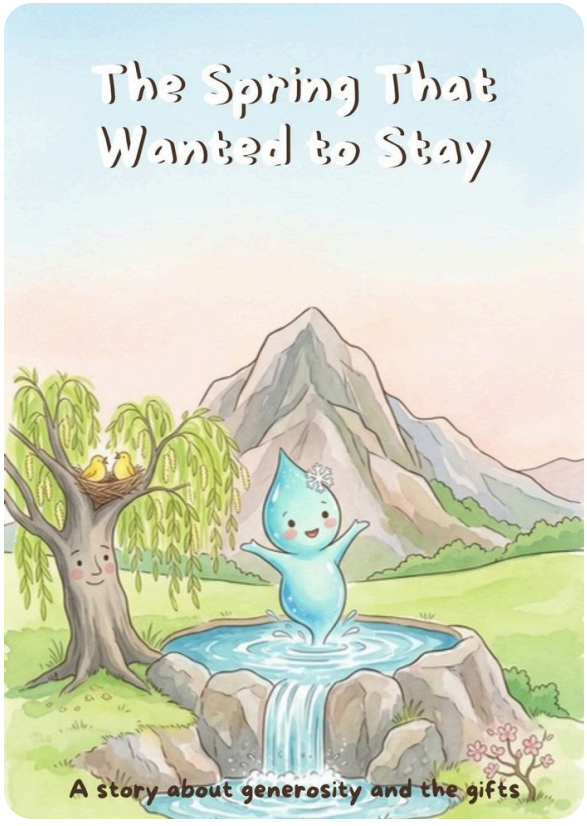

Look for: She was alone, and nothing around her was alive.

4. What happened to Nura after she shared? Did she get smaller?

Look for: She became a river, then a cloud, then snow, and came back fresh.

5. What is something you have that you could share? How might it come back to you?

Look for: Any answer: toys, time, a song, a smile.

Say it together

Drip... drip... drip.

The big idea: When we share what we have, it doesn't run out. It keeps life flowing, for others and for us.

Science and place corner

Nura's mountain has no name, so we picked the Hohe Tauern National Park in the Austrian Alps. It's full of glaciers, springs and streams that melt and flow down to the valleys, just like Nura.

Eurasian otters

A group of otters can be called a romp.

Grey heron

Even with huge wings, a heron weighs little more than a pheasant.

Buff-tailed bumblebees

If a flower is too deep, a bumblebee may bite a hole in the side and sip the nectar.

Common frogs

It's the most widespread amphibian in Europe.

Hohe Tauern, Austria

The otter family: Real otters really do need rivers full of water and fish. A dry stream would be a real problem for an otter family.

The heron: Real herons love clear, flowing water full of fish, so it makes sense that the heron only shows up once Nura shares her water.

The bees: When rivers and meadows dry up, there are fewer flowers, and bees have a hard time. The story gets that right.

For every child

English and French learners

Watch the read-aloud first. Use real water, a jar and ice to show spring, pond, still and flow. ‘Drip… drip… drip’ is easy for everyone.

Children who need more support

Use three stops (spreads 5, 10 and 14). This book has 16 spreads; you can read it over two sittings, stopping after spread 9.

Mixed ages and older children

Older children draw the water cycle as a circle with arrows and label each stage with Nura’s journey: snow, spring, river, sea, cloud.

Handle with care

Wanting to keep things is normal. Never shame a child for it; Nura is scared, not bad.

Sharing doesn’t mean giving away everything until nothing is left. Nura becomes more, not less.

Keep water play safe: small amounts, a towel ready, and a grown-up close by.

Where this value comes from

This story doesn’t come from one culture. The ancient Greeks carved short sayings at Delphi, and one of them is simply ‘Give what you have.’ Many traditions teach the same thing in their own words.

Family letters

Cut apart and send home in the family's language, or copy the text into your newsletter.

English

Today we read The Spring That Wanted to Stay, a story about sharing. Nura the little spring tries to keep all her water, but she only comes alive again when she lets it flow to the whole valley. At home, watch water together, in a bath, a puddle or the rain, and talk about where it goes next. You can watch or read the story together for free at doubleadventure.ca.

Français

Aujourd'hui, nous avons lu La source qui voulait rester, une histoire sur le partage. Nura, la petite source, essaie de garder toute son eau, mais elle ne revit que lorsqu'elle la laisse couler vers toute la vallée. À la maison, observez l'eau ensemble, dans le bain, une flaque ou la pluie, et parlez de l'endroit où elle va ensuite. Vous pouvez lire ou regarder l'histoire gratuitement sur doubleadventure.ca.

Español

Hoy leímos un cuento sobre compartir. Nura, el pequeño manantial, intenta guardar toda su agua, pero solo vuelve a la vida cuando la deja fluir hacia todo el valle. En casa, observen el agua juntos, en el baño, un charco o la lluvia, y hablen de adónde va después. Pueden leer o ver el cuento gratis en doubleadventure.ca.

Family letters

Continued.

Deutsch

Heute haben wir eine Geschichte über das Teilen gelesen. Die kleine Quelle Nura versucht, ihr ganzes Wasser zu behalten, doch erst als sie es ins ganze Tal fließen lässt, wird sie wieder lebendig. Beobachten Sie zu Hause gemeinsam Wasser, in der Badewanne, einer Pfütze oder im Regen, und sprechen Sie darüber, wohin es als Nächstes fließt. Die Geschichte gibt es kostenlos auf doubleadventure.ca.

Italiano

Oggi abbiamo letto una storia sulla condivisione. Nura, la piccola sorgente, cerca di tenere tutta la sua acqua, ma torna a vivere solo quando la lascia scorrere verso tutta la valle. A casa, osservate insieme l’acqua, nella vasca, in una pozzanghera o sotto la pioggia, e parlate di dove andrà dopo. Potete leggere o guardare la storia gratis su doubleadventure.ca.

Home activity pack, ages 3 to 7

The Spring That Wanted to Stay

Twelve pages to color, cut, trace, make and talk about, all from the story.
The value in this book: generosity.

For use in your own home. Please don't share the file or post it online.

For grown-ups

Read the story first, then pick one page a day. Each page takes 10 to 20 minutes. There are no wrong answers.

The big idea

When we share what we have, it doesn't run out. It keeps life flowing, for others and for us.

Say it together

Drip... drip... drip.

Five words from the story

Word	What it means	Do it
spring	a place where water bubbles up out of the ground	wiggle your fingers upward like bubbles
pond	a small pool of still water	make a round shape with your arms
flow	to move along like water in a stream	wave your hand forward
still	not moving at all	freeze like a statue
valley	low land between hills or mountains	make a V shape with your arms

A gentle note

Wanting to keep things is normal. Never shame a child for it; Nura is scared, not bad.

Sharing doesn't mean giving away everything until nothing is left. Nura becomes more, not less.

What you need

Crayons, a pencil, scissors, glue or tape, a few craft sticks or straws, and the book (or read it free on screen at doubleadventure.ca).

© A² Publishing, doubleadventure.ca

Meet the friends

Cut out each card along the dashed line. Tape a craft stick on the back and you have a puppet. Act out the story!

The otter family

Eurasian otters

Look for a swimming hole, then leap in when the water comes back

The heron

Grey heron

Comes back when the stream flows again

The bees

Buff-tailed bumblebees

Buzz from flower to flower

The frogs

Common frogs

Hop away when the pond grows still, and come back later

How did they feel?

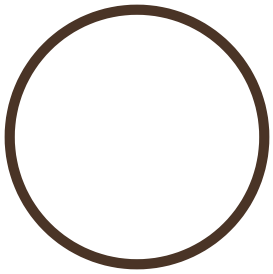

Feelings change during a story. Talk about each moment, then draw how the character felt.

Moment 1

Nura and Willo look after each other.

Draw the face. Then circle a word.

sad scared worried happy brave proud calm

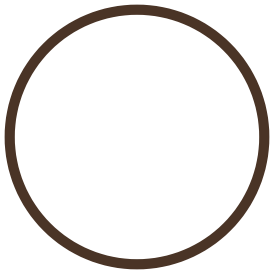

Moment 2

Willo droops; his birds fly away.

Draw the face. Then circle a word.

sad scared worried happy brave proud calm

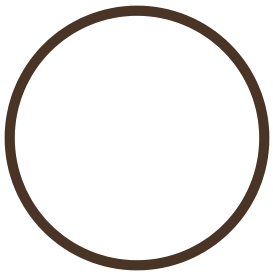

Moment 3

She becomes a river.

Draw the face. Then circle a word.

sad scared worried happy brave proud calm

© A² Publishing, doubleadventure.ca

Story in order

Color the pictures. Write 1, 2 and 3 in the boxes to show what happened first, next and last. Then cut them out and tell the story.

Color me ☐

Color me ☐

Color me ☐

Tell it in your own words

First, _____

Then, _____

At the end, _____

For grown-ups: the pictures come from the start, the middle and the end of the book. Younger children can just point and tell.

© A² Publishing, doubleadventure.ca

Trace the words

Trace each word with a pencil. Then try writing it on your own in the empty space.

spring a place where water bubbles up out of the ground

spring spring

pond a small pool of still water

pond pond

flow to move along like water in a stream

flow flow

Nura the hero of the story

Nura Nura

Write your name

© A² Publishing, doubleadventure.ca

Draw your own story

Nura showed generosity. Draw a time when you showed generosity too, or a time you could.

Tell a grown-up: What happened? How did you feel? How did the other person feel?

© A² Publishing, doubleadventure.ca

Make and do

Pick one to try today. Each one comes straight from the story.

Stuck pond, flowing stream

You need: A tray, stones, a watering can, leaves

Build a stream on a tilted tray and pour water. Then block it with stones and pour again. Add leaves to the still water. Talk about which water stays fresh.

Pass the water

Fill a cup and pass it along a line of friends with a spoon each. Does everyone get some?

Heron statue

Stand on one leg like a heron. How long can you stay still?

Bee buzz

Hum with your lips closed and feel the buzz. That's how bees shake pollen loose!

Draw what you made

© A² Publishing, doubleadventure.ca

The real animals

The animals in The Spring That Wanted to Stay are based on real ones. Here is something true about each of them.

The otter family

Eurasian otters

A group of otters can be called a romp.

The heron

Grey heron

Even with huge wings, a heron weighs little more than a pheasant.

The bees

Buff-tailed bumblebees

If a flower is too deep, a bumblebee may bite a hole in the side and sip the nectar.

The frogs

Common frogs

It's the most widespread amphibian in Europe.

Story or real?

Real otters really do need rivers full of water and fish. A dry stream would be a real problem for an otter family.

Where they really live

Nura's mountain has no name, so we picked the Hohe Tauern National Park in the Austrian Alps. It's full of glaciers, springs and streams that melt and flow down to the valleys, just like Nura.

Facts and sources: doubleadventure.ca/heroes/the-spring-that-wanted-to-stay

© A² Publishing, doubleadventure.ca

Color the story

Color this page from the book. What is happening here?

© A² Publishing, doubleadventure.ca

Talk together cards

Cut out the cards and keep them in a jar. Pull one out at dinner, in the car or at bedtime.

Where does water come from? Where do you think it goes?

The Spring That Wanted to Stay, talk card 1

Why did Nura want to keep all her water?

The Spring That Wanted to Stay, talk card 2

What happened to the valley and to Willo when Nura stopped flowing?

The Spring That Wanted to Stay, talk card 3

Why do you think Nura felt empty even though she was so full?

The Spring That Wanted to Stay, talk card 4

What happened to Nura after she shared? Did she get smaller?

The Spring That Wanted to Stay, talk card 5

What is something you have that you could share? How might it come back to you?

The Spring That Wanted to Stay, talk card 6
